

Renewable Energy

2022-04-13

Contents

Reading: 1

Reading:

Required for Grad Students (optional for undergrads):

- Handout: Ren21, *Renewables 2021 Global Status Report*, Ch. 1.

Notes:

Focus on the text on pp. 5–12. In the latter parts, after p. 12, most of the report is figures. Look carefully at the sections on transportation (16–17), electric power generation (18–19), and international comparisons on pp. 20–23. Read lightly the sections on technologies on pp. 24–30. There are short text summaries and figures that illustrate the progress that has been made for different technologies.

Focus on pp. 29–37 and 42–45, and 48–55
